### **Auditor's Report**

This is to certify that on January 14, 1954 I examined the books of the town clerk, tax collector, selectmen, road agent, town treasurer and librarian and found them correct and with proper vouchers and a balance in the treasury of Three Thousand Seven Hundred Sixty-six Dollars and Two Cents (\$3,766.02). On January 23, 1954 I examined the accounts of the trustees of the trust funds of the Town of Brentwood and found them correct and with proper vouchers.

Respectfully submitted,

GLADYS E. McCOY,

*Auditor*

**REPORT OF FIRE DEPARTMENT**

The Fire Department answered 23 calls during the year 1953. Thanks to the fine co-operation of the firemen and the townspeople, these fires were all small and with little property damage.

The fire insurance rate in the Fire House zone has been reduced and we are trying to have this reduction extended to the next zone. Due to the fact that New Hampshire has lost so many large barns and livestock, the rate on farm dwellings is still high.

You, as citizens and taxpayers can help the Fire Department and yourselves by

**I**

Reporting every fire, no matter how small, at once, to the Fire Department.

**II**

Starting no outside fire without a permit from the Forest Fire Warden.

**TO CALL THE BRENTWOOD FIRE DEPARTMENT**

Call your operator, ask for the Brentwood Fire Department, and give the operator the location of the fire.

We of the Fire Department would like to thank everyone who has helped us during the past year.

W. S. BARTLETT,

*Chief*

SIDNEY PARSHLEY,

*Deputy Chief*

**SUPERINTENDENT'S REPORT**

To the School Board and Citizens of Brentwood:

It gives me pleasure to submit this, my fourth annual report as your Superintendent of Schools.

That the School Board and citizens of Brentwood are proud of their school is evidenced by their continued efforts to improve the physical and educational assets of the Swasey School.

The completion of concrete steps on the west end of the school has not only added to the lines of the building, but has improved its accessibility. The extension of black top area on each end has increased the play space during the wet season and added to parking space when the building is being used for public purposes.

The laying of soil pipe along the sides of the school and draining of excess water into the low land on the west end should not only correct a bad situation from the view point of health but should make the basement available for activities the year round.

Weather stripping the windows and the painting of two class rooms is the result of a definite program of maintenance as projected by your school board.

Brentwood was fortunate in retaining its staff of experienced teachers. The level of instruction as presented by your teachers is high as indicated by the testing program carried out by Mr. Scanlan. Many worthwhile extra curricular activities are carried on by the teachers thereby assuring a well rounded educational program. The physical education program carried on with the cooperation of New Hampshire University was very worthwhile and will be continued the last half of this year.

Miss Irene Tanguay, B. U. 1953, was elected to replace Miss Leombruno who resigned to accept a position in New

York State. Miss Tanguay has been developing a sound music program in the Swasey School.

Mrs. Constance Huss, R.N. to replace Mrs. Constance Cooper who was granted a years leave of absence because of ill health. Mrs. Huss comes to us with a fine background to this type of work and is showing an active interest in safeguarding the health of our young people.

### **Testing and Guidance**

Under the direction of Mr. Scanlan, Union Guidance Director, the above program is growing more and more worthwhile. Many parents have taken the opportunity to discuss their child with Mr. Scanlan. It is hoped that more parents will avail themselves of this opportunity as the program develops.

### **Equipment**

The new swings and see-saws on the playground have seen active service and have been a very popular addition. A basketball standard would be good additional equipment for the older group. A start has been made in providing a well equipped playground and it is hoped the program will be carried on by adding one or two pieces of equipment each year. More desks and chairs should be bought in order to provide adequate seating for the increased enrollment.

Although Brentwood is wise in not developing a school lunch program until facilities are ready and available, I hope that work will progress toward making it possible in the near future. Experience in other schools has proven such a program to be very worthwhile.

### **Return of District Revenue**

This report is accompanied by a page devoted to the Return of District Revenue which shows the actual budget

we are operating on for the year 1953-54. A survey of this budget will show that your school board is doing a fine job in keeping costs at a minimum while at the same time providing a good educational program for Brentwood's future citizens.

In closing, I wish to express my appreciation to the school board, citizens, teachers and pupils for their friendly cooperation. It has made my work pleasant.

Respectfully submitted,

LOUIS L. RAMSAY,

*Superintendent*

**REPORT OF MUSIC TEACHER**

To the Superintendent and School Board,  
Citizens of Brentwood:

I am sure you are well aware of the importance which music holds in the education of your children. Many articles have been written about the effects—mental, emotional, and social—of music. Every music educator is thankful that the public has awakened to the need for a sound music program in the schools. It is towards this goal that we have been striving during the year.

The structure of any undertaking depends upon a solid foundation. We are in the process of building this necessary groundwork, here in Brentwood, and each class has shown excellent progress. Although the singing of songs and work of a technical nature have been the main channels in which we have spent our time, we have also enjoyed square dancing and listening to music on records.

The music time after Thanksgiving was used in preparing and rehearsing the music for the Christmas Program, which I am sure you all agree was a great success. Later in the Spring, We shall begin preparations for the Graduation Program.

I wish to express my sincere thanks to each of the teachers whose cooperation helped so much. My thanks also to the pupils and the parents for making my first year here such a happy one!

Respectfully submitted,

IRENE L. TANGUAY,

*Music Supervisor*

## HEALTH SUPERVISION

To the Superintendent and School Board,  
Citizens of Brentwood:

It has been a pleasure for me to serve you these past few months in the capacity of school nurse-teacher. My aim is to continue the fine quality of care to which you are accustomed, and to fulfill your confidence in me.

The program for covering the health needs of all school children is a full one. First of all, the first aid requirements of the school are checked and supplied. Fortunately, there is seldom a major accident in the schools, but even from minor cuts children can learn the importance of cleanliness and prevention of infection. Every mishap can be turned into a learning experience which may prevent recurrences.

All children undergo a health appraisal which includes heights and weights, observation of teeth, tonsils, skin, hair, scalp and posture.

Yearly eye and ear tests are done also. Follow-up visits to the parents are made in cases where further care or treatment is indicated.

The teaching of health to school children rather than being done on a classroom basis, is carried on informally with individuals and small groups. Opportunities for this type of teaching are almost constant.

I would like to express my deep appreciation to all school personnel, to parents and to local groups who aid in making this work so pleasant and rewarding.

Respectfully submitted,

CONSTANCE HUSS, R.N.

*School Nurse*

### GUIDANCE DIRECTOR'S REPORT

To the Superintendent of Schools, Members of the School Board and Citizens of Brentwood:

Again it gives me great pleasure to present my annual report, the second, as Director of Guidance.

The program is moving along well this year toward our objective—a first class program of guidance services for all our pupils from grade one to twelve. The Individual Inventory for each pupil in the eighth grade has been set up and the guidance tests have been given. On the basis of these I am now counseling each pupil individually on their choice of an occupation and the choice of a course in high school in which they will begin the training for this vocational career.

In order to acquaint the pupils with the opportunities in the various fields of work this year we are using three approaches: 1. Bulletins giving information about the various careers are placed on the bulletin board each week. 2. Classes each week for the eighth grade pupils during which time I discuss with them the occupational world and the many types of careers and opportunities therein. We are using part of this class as a time during which we discuss the Development of Personality. We are making plans to have these classes become a regular part of the program. 3. Individual counseling—This is basic to the whole process of guiding, the time when I sit down with them and talk over their career and its possibilities.

Mrs. Hammond gave the tests to the fourth and sixth grade pupils. These are the Standardized tests which compare the progress our pupils are making in Reading, Arithmetic, and Language with other fourth and sixth grade pupils in the United States. These tests, too, point out the weaknesses which need to be strengthened. An aptitude test was also given to the fourth and sixth grade.

We are adding this year, for the use of the teachers in the first three grades, a Standardized Reading Test. It is given during these three grades that help in reading may be most advantageously given.

The same program is being carried on for the upper grade Brentwood pupils at Sanborn Seminary.

We are now working on the Individual Inventory for each pupil starting with the first grade. The purpose of the inventory is to keep a close check on the progress the child is making in his physical, mental, social, emotional, and moral development. If a pupil is not doing work up to his potentialities, if he is not getting along well with the other children, if he is not developing properly emotionally, it is in the early grades that he can be best and most easily helped.

We are planning this year on a course for the teachers in Personality Development and the use of our tests. A course for parents in Child Training will be given in March.

For those interested adults, the Vocational Guidance Battery of Tests will be available in the spring, along with an individual appraisal.

I feel that the guidance program is well on its way toward becoming an integral part of our educational system.

In closing I wish to express my deepest appreciation to you all for your help, cooperation and understanding.

Respectfully submitted,

JOHN A. SCANLAN,

*Director of Guidance*
